10X
> 10x quieter than most
audiophile power supplies

Improved Output/Input
dynamic noise suppression

Reverse polarity adapter for
center pin negative products

iPOWER

Is your system 'hissing'? You need to replace your regular power supply with the **iPower**. This super silent power supply will feed your system's circuits with the ultra-quiet power at both the input and output stages.

With improved components and thicker gauge wiring, the **iPower** is the simple silent upgrade your system deserves. The **iPower** comes in 5V, 9V, 12V or 15V. Use it for any products requiring super silent power.

Active Noise Cancellation II

iPower uses our improved Active Noise Cancellation II to actively cancel all incoming noise.

It does this in a similar way to active noise-cancelling headphones – it generates a signal identical to that of the incoming electrical noise but in the opposite phase, actively cancelling it out. This is highly effective at removing low- and mid-frequency noise, while passive insulating filters deal with higher frequency interference.

Audio Band Noise Floor*

*Noise floor is the random noise and excl. AC mains related components and switching freq (<30uV).

Specifications

| | |
|-------------------------|---|
| Input: | 100-240VAC |
| Output: | 5V/2.5A; 9V/2.0A; 12V/1.8A; 15V/1.2A |
| Output plug: | 3.5x1.35mm; 4.0x1.7mm; 4.8x1.7mm; 5.5x2.1mm; 5.5x2.5mm; Reverse Polarity Plug (White) |
| Noise floor*: | ~1uV |
| Dimensions: | 82 x 43 x 43 mm 3.2" x 1.7" x 1.7" |
| Weight: | 165 g (1.2 lbs) (with cable) |
| Warranty period: | 12 months |

*Average audio band noise floor.
